FIRE SAFETY CHECKLIST

PLEASE CHECK OFF SAFETY ITEMS YOU FOLLOW:

- ☐ **Are your smoke detectors being cleaned by a licensed professional as required by code?**
- ☐ **Is your fire alarm system being inspected by a licensed professional as required by code and most insurance regulations?**
- ☐ **Does your building have Carbon Monoxide detectors that meet code requirements?**
- ☐ **Does your staff understand how your fire alarm system works and do you have a certified person on staff as per certain codes?**
- ☐ **Do you have central station monitoring?**
- ☐ **Are your fire extinguishers up to date?**
  (Should have a date stamped that is less than a year old)
- ☐ **Are the fire extinguishers mounted properly and free of obstructions?**
  (Should be between 4" and 60" from floor and nothing within a 36" radius of the extinguisher)
- ☐ **Do you have an adequate number of fire extinguishers?**
  (They should be placed so travel distance does not exceed 75 feet or where there is a significant hazardous area to protect such as kitchens)
- ☐ **Are employees aware of the location of fire extinguishers and exit doors?**
- ☐ **Are pull stations free from obstruction and mounted at the proper height and distance from paths of egress?**

Any unchecked boxes indicates an area of fire safety that needs to be addressed, any boxes checked indicates a positive, fire-safety situation. If you have any questions, please call Briscoe Protective Systems toll free at **1-888-BRISCOE**
