

Holiday Safety Tips

- * Place trees away from sources of heat
- * Inspect lights for frayed wires or other defects before use
- * Always pay attention to your cooking
- * Use extension cords wisely - Do not overload
- * Never leave candles unattended
- * Always turn off lights when leaving the house or going to bed
- * Keep outdoor extension cords clear of snow and standing water
- * Give space heaters space - at least a 3 foot radius
- * Do not link more than 3 strands of holiday lights together
